With the page-flipping ebook you have created, your user will be able to:

1. Flip book pages by dragging corner, clicking page shadow, mouse wheel, etc..
2. Use Previous, Next, First or Last buttons or thumbnails to navigate through the pages.
3. View with important pages pre-loaded to open quickly, no need to wait for all pages to be loaded.
4. Flip pages automatically.
5. View page-flipping eBook in full screen.
6. Add annotation text or shapes to highlight.
7. Print out the whole eBook or a selected range of pages.
8. Download uploaded page-flipping eBook or other file while reading book.
9. Double-click to zoom in or zoom out.
10. Share eBook URL via email, Facebook, Twitter, Google, Yahoo, etc.
11. Turn background sound on/off.
12. Open in the Browser to a specific page by adding a page index to your URL. E.G. www.yourdomain.com/index.html?pageIndex=4.
13. Always show in Minime Style with adding a parameter to URL. E.G.

Copyright 2013 by pageflippdf.com

www.yourdomain.com/index.html?alwaysMinimeStyle=true.

14. View page-flipping eBooks in the browser of Mac, PC, iPad, iPhone and Android devices.

Quick Start

1. Launch the application via the desktop shortcut ;

2. Click "Create New" and select template and define project path;

3. Select PDF to import and click "Import Now" icon to enter into template setting interface;

4. Define parameters for eBooks, such as Book, Tool Bar, Bookmarks, and then click the "Apply Change" icon ;

5. Click "Edit Pages" to add objects like links, images, sounds, videos on pages;

6. Click "Upload Online" or "Convert to Flipping Book" to output created page-flipping eBook.

Interfaces

There are some main interfaces you will see while using EFLIP Enterprise as below shows: **Project Panel**, **Application Options**, **Import PDF**, **Template Settings**, **Edit Pages**, **Language Option**, **Output**, **Batch Convert** and **Upload**

Copyright 2013 by pageflippdf.com

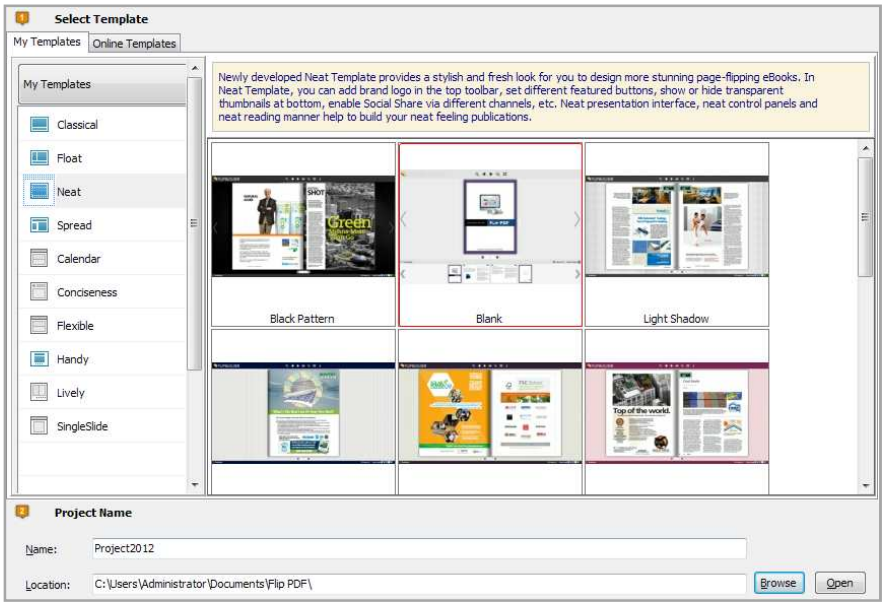
Online. You can enter into each page to get clear instructions for every detail option.

I. Project Panel

In the project control panel, you can view and open recent projects and output flipbooks, create new project or just view demo project. Besides, you can view Online Service details, get support, check "About" and "Update" info.

II. Import PDF Interface

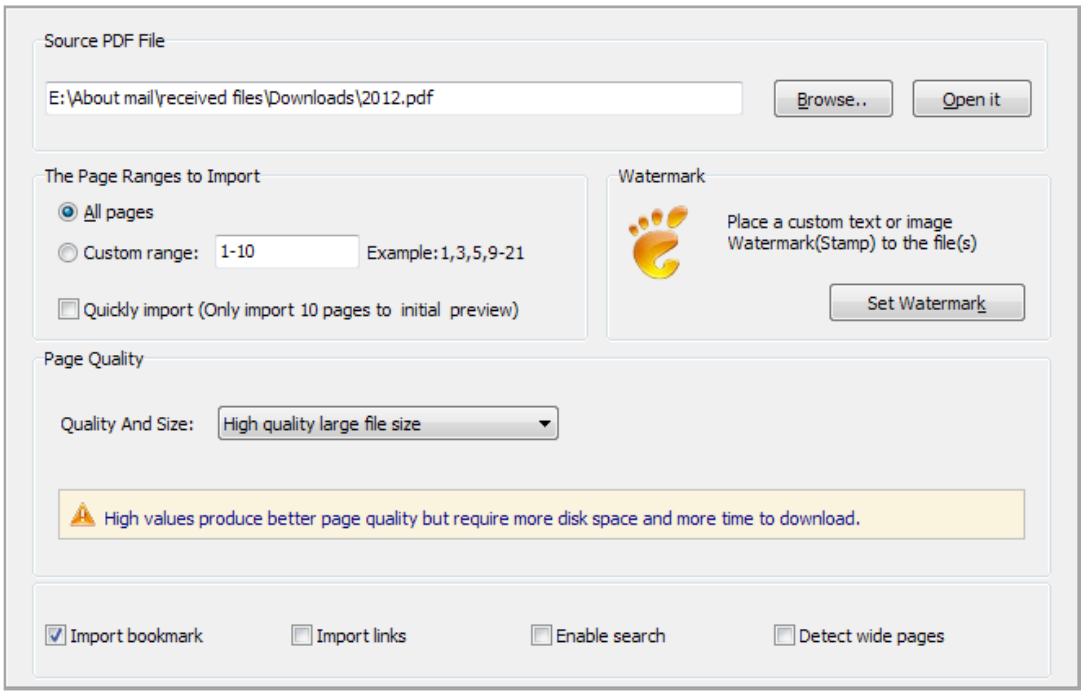
Chick "Create New" to build your own project, select template, define project name and location.



You can select Template and Theme from the list, or go to "Online Templates" panel to download more templates and themes to use in EFLIP Enterprise.

More templates and themes online: http://www.pageflippdf.com/themes-2012.html

Then click "Next" to enter into PDF Import interface:



1. Source PDF File:

Click this icon to open the PDF file you want to convert;

Copyright 2013 by pageflippdf.com

Open it View content of added PDF file to clarify before converting.

2. The Page Ranges to Import:

All pages Convert all pages to page-flipping eBook;

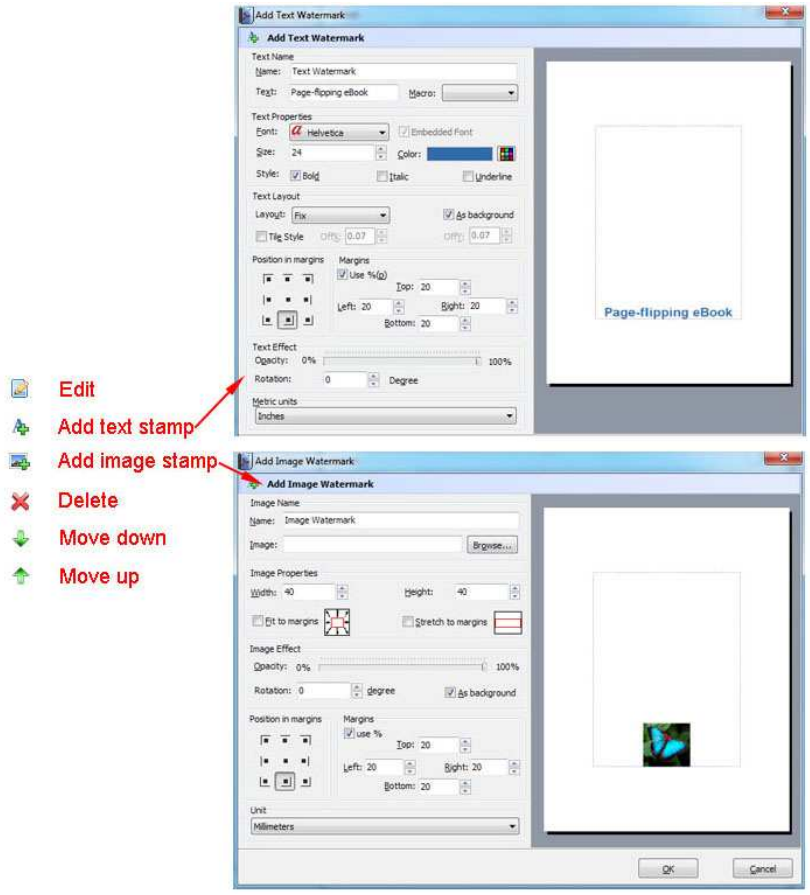
Custom range: 2-5 Example:1,3,5,9-21 Convert defined range page;

Quickly import (Only import 10 pages to initial preview) Just preview effect on first 10 pages.

3. Watermark

Set Watermark Add image or text watermark to flipping pages.

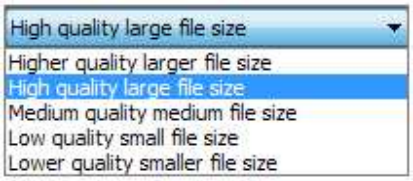
Applying Watermark Check this option first to choose default stamps or add new ones:



4. Page Quality

There are five types of "Quality And Size":

Copyright 2013 by pageflippdf.com



5. Other Options:

Check this option to use bookmarks of PDF in page-flipping eBook;

If your PDF file has links, check this to enable in flipbook;

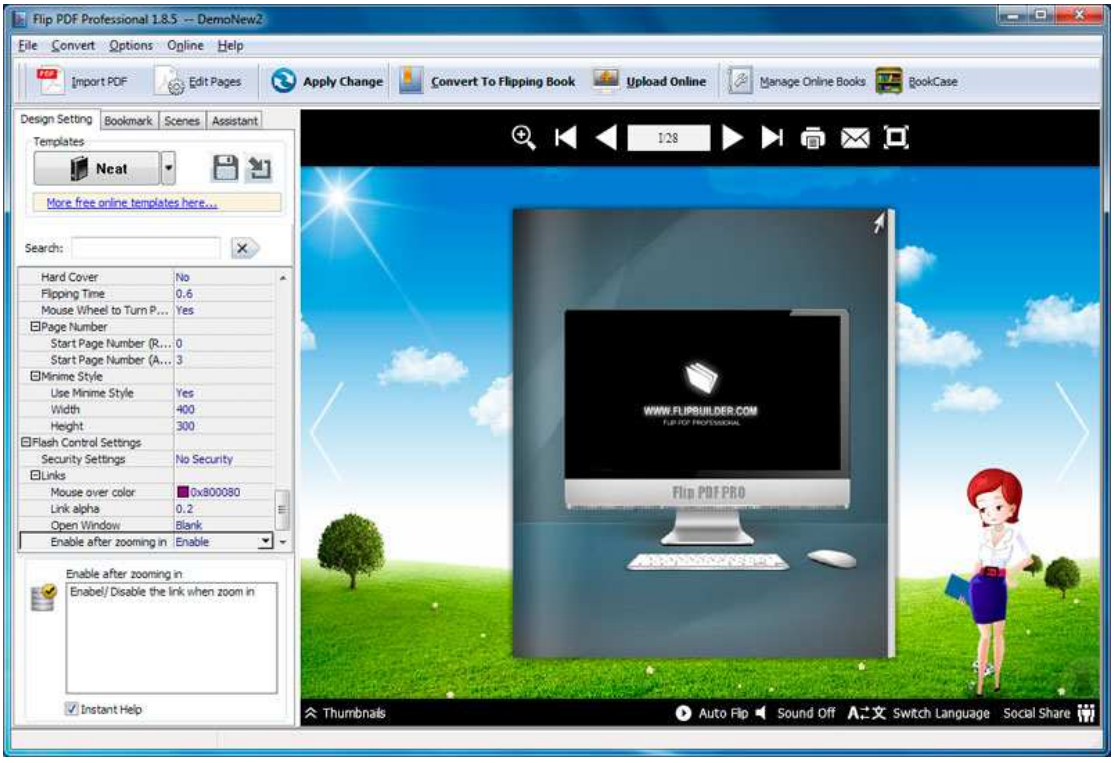
Check this option to enable search functionality in created flipbook.

Check the option to make landscape page in PDF file to be presented as two-page spread in output flipbook.

At last, click

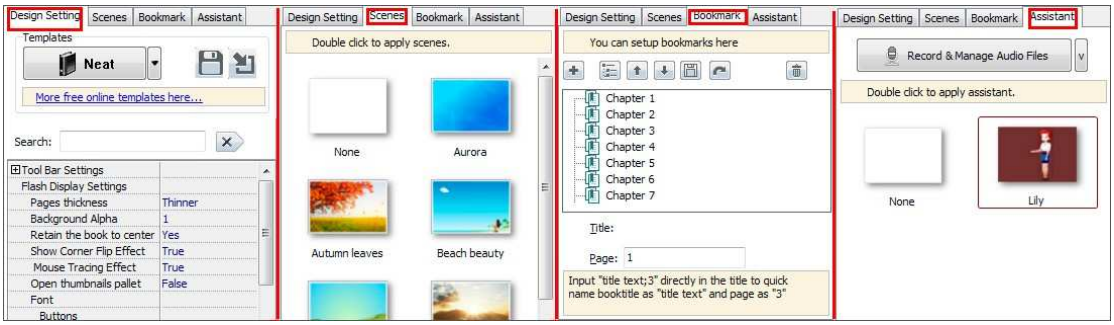
icon to enter into template setting interface.

III. Template Settings Interface



Copyright 2013 by pageflippdf.com

After importing PDF, you will see the main Template Design and Preview interface. Four tabs in the design panel for you to design template, choose scene, define bookmark and edit content for assistant.



1. Design Setting

The design setting interface contains below main parts: **Choose Template, Tool Bars Settings, Flash Display Settings and Flash Control Settings.**

(1). Choose Template

Although you have selected template before importing PDF, you can also change to other templates. Just click icon to select templates from Template Selection interface, or download Online Templates to use.

Click this icon is to save current settings as a TXT file for later uses;

Click this icon is to import stored setting file at once.

There are 4 different templates at present: Classical, Float, Neat and Spread. You can also click "Online Templates" to install more templates to use. Each template contains some unique settings. More templates and themes online: http://www.pageflippdf.com/themes-2012.html

(2). Tool Bar Settings

Copyright 2013 by pageflippdf.com

i. Title Bar (only in Float template)

⊟Title Bar	
The Book Logo	C:\Users\Admini...
Logo URL	http://flipbuilder...
Book Title	<a href='http://...
Page Number Box On ...	False

Customize book title and logo for showing on the top of your flipbook. You are enabled to set the book title as HTML format text. For example: pageflippdf.COM | Red Color

ii. Buttons Bar

⊟Buttons Bar	
Full Screen Button	Show
⊞Help Config	
⊞Print Config	
⊞Download setting	
⊞Sound	
⊞Zoom Config	
⊞Search	
⊞Share	
⊞Language	
⊞Auto Flip	
Add Annotations	Enable

Home Button

You can add a home button to help reader to click and go to your website directly:

⊟Home Button	
Home Button Visible	Show
Page URL	http://flipbuil...
Open Window	Blank

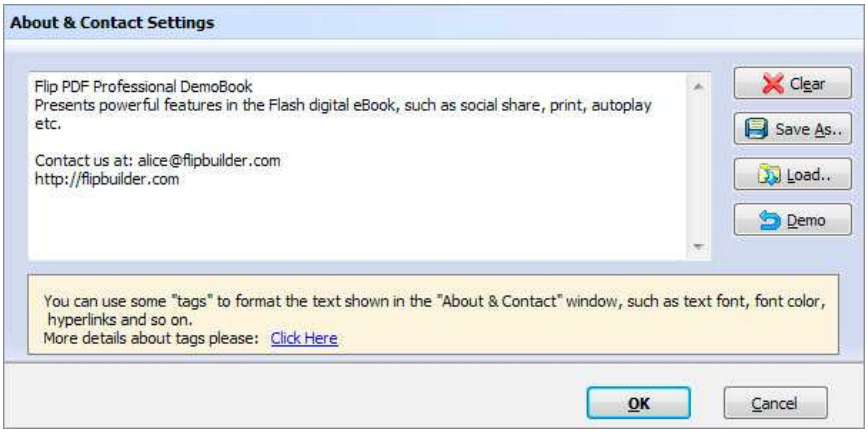
About Button

Add About button to show the author, contact, book, company info:

⊟About Button	
About Button Visible	Show
Content	<textformat ...

Click "..." to enter into "About & Contact" edit interface:

Copyright 2013 by pageflippdf.com



After clicking the About button, you will view the About window by clicking the button:

Full Screen Button

To enable "Full Screen" functionality in output flipbook, select "Show" in "Full Screen Button" option:

Then you can click icon to view flipbook in Full Screen, click icon or "Esc" button to exit from the Full Screen.

Or if you want to show your flipbook without Tool Bar while showing in Full Screen mode, you can set "No" in "Full Screen without Tool Bar" (just in Classical Template):

Help Config

To show tips about viewing flipbook, you can set "Show" in "Help Button" option, and you can define Help Content manually by inserting "Help Content File (image or SWF)", also enable to define the Width and Height of the Help image or swf. If you set "Book->Retain the book to

Copyright 2013 by pageflippdf.com

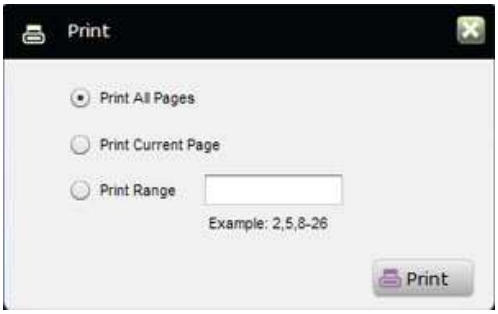
center->No", you can set "Show Help At First->Show" to display the Help Panel with the Book as below:

You can also click the button to view the same Help page in pop-up window.

Print Config

Print Config	
Print Enable	Yes
Print Wartermark File	ges\log.png

Choose "Yes" in "Print Enable", then click icon to set print page range as below:



You can also click "Print Watermark File->..." button to choose image or SWF file from your computer as watermark on printed out pages.

Download Setting

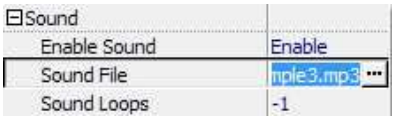
Download setting	
Download Enable	Yes
Download URL	PDFDemo.pdf

If you want your flipbook readers to download the PDF file or the flipbook directly from your website, select "Yes" in "Download Enable" option, then input the Download URL directly, you can use absolute path like "http://www.
pageflippdf.com/example/files/download/FlipPDFDemo.pdf" or relative path like "/files/download/FlipPDFDemo.pdf" (make sure you have uploaded the PDF to the same path).

Copyright 2013 by pageflippdf.com

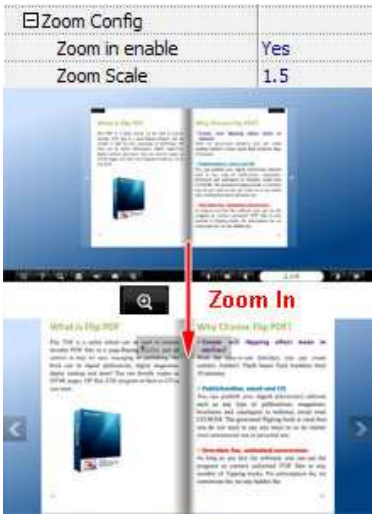
Then readers can click the icon to download your uploaded PDF file directly.

Sound



If you want to add background sound to your flipbook, such as a song or other audio file, set "Enable Sound->Enable", then click " " icon to choose "Sound File" from your computer, then set "Sound Loops", "-1" stands for playing the sound file all the time while viewing flipbook, other value (N>0) stands for the times of playing the sound file.

Zoom Config



To Enable Zoon In functionality, choose "Yes" in "Zoon in enable", then set "Zoom Scale", the value is the times between zoomed page size and the current page size.

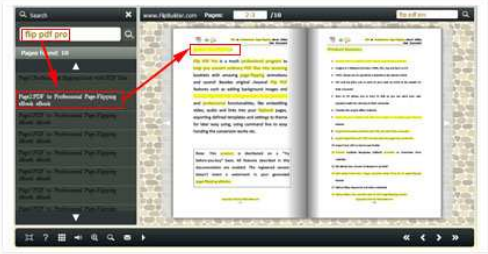
In Float template, you don't need to set Zoom Scale, you can adjust more conveniently by the zoom in tool like this: You can also set "Scroll with mouse->Yes" to scroll zoom in page while moving mouse.

Search

Select "Show" in "Search Button" (make sure you have check "Enable Search" option in "Import PDF" interface), then define "Search Highlight Color", after clicking "Search" icon , you

Copyright 2013 by pageflippdf.com

will see a popup box to input search words, then click Enter or "Search" button, you will get the below searching result:



Share

⊟Share	
⊞Share Button	
Social Share Button	Show

You can share via emails, or just through Facebook, Twitter, Google, etc..

a. Share Button

If you want readers to share via Email, you can enable "Share" feature as below shows:

⊟Share Button	
Share Button	Show
Email Subject	Rear my fli...
Email Body	{link}

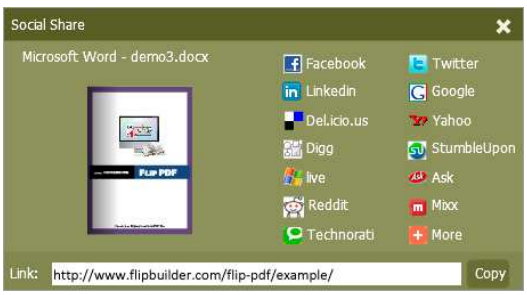
When the viewers click the share button , they will enter into the Email interface with the link of your flipbook in the Email body.

b. Social Share

If you want your flipbook viewers to send the link to their friends or clients via Facebook, Twitter, Linkedin, Google, Yahoo and so on, you can add a Social Share button in your flipbook for readers to send out your flipbook link immediately:

Social Share Button	Show

The readers just need to click the "Social Share" button , then the below window will pop up for them to choose share channel:



Auto Flip

To auto flip your eBooks, you can set "Yes" in "Auto Flip->Enable" option; then define the Flip

Copyright 2013 by pageflippdf.com

Interval (seconds of staying on each page); the value of "Play Count" stands for the times of auto playing the eBook, and "-1" stands for playing forever (after clicking the Auto Flip button , the flipbooks will be flipped by staying 3 seconds per page); if you want to auto start and flip the eBook after opening, just set "Auto flip when start up->Yes":

Auto Flip	
Enable	Yes
Flip Interval	3
Play Count	-1
Auto flip when start up	Yes

Thumbnail Button

Thumbnail Button	Enable

Show Thumbnail Button (set "Enable") to view page thumbnails of your book, or you can Disable it to hide the button.

Single Page

Single Page	Enable

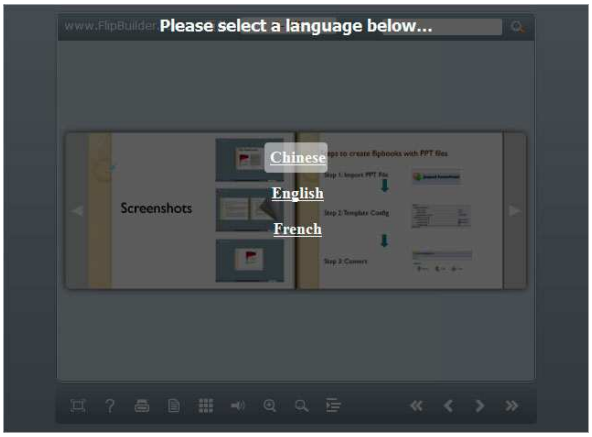
If your book contains landscape pages, or the page content is different to read for the font is too small, you can set "Single Page->Enable" to enable readers to click "Single Page" icon to view pages one after another, then click "Double Page" icon to back to the normal book reading mode.

Language

Language	English
Language	English;Chine...
Switchable	Yes

You can set language for showing tools or tips in your created flipbook, click "..." to enter into "Language Settings" interface. You can choose two or more language to use, just check "Switchable" option, then users can click "Switch Language" button to choose their prefer language for tips (more language setting details you can view in below Language Setting part):

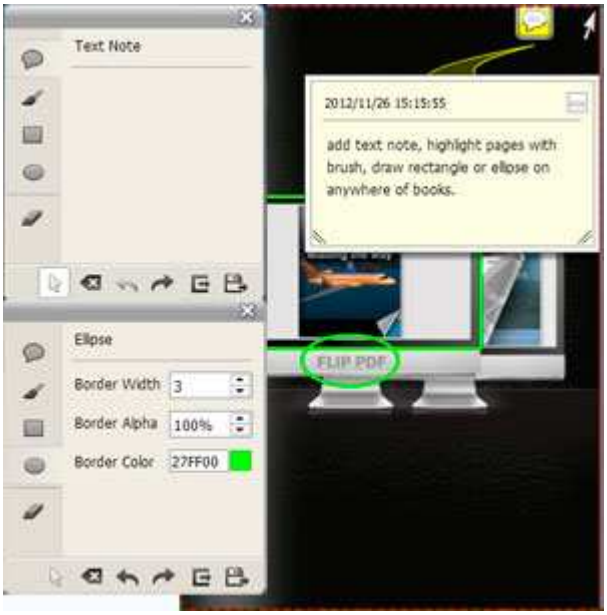
Copyright 2013 by pageflippdf.com



Add Annotations

To help readers take notes on your books while reading, you can set "Add Annotation->Enable".

When readers view your book on computer, they can click "Add Annotation" icon to add text note, highlight pages with brush, draw rectangle or ellipse on anywhere of your book pages. If they open the book next time, they can view the comments, or delete as they want:



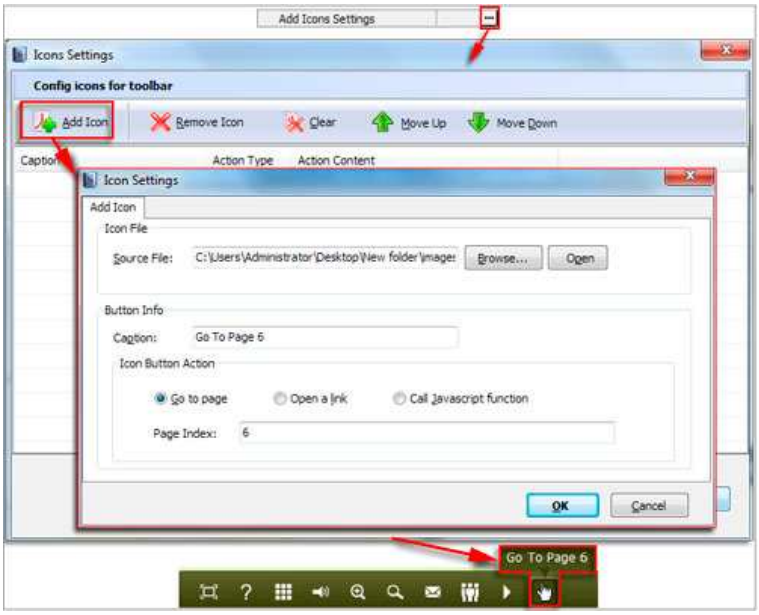
iii. Tool Bar on Top (only in Float template)

If you want to place the toolbar in Float templates on the top of the flash eBook, you can set "Tool Bar on Top" as "True":

Copyright 2013 by pageflippdf.com

iv. Add Icons Settings

If you want to add some other kinds of buttons which the program doesn't provide, you can click "Add Icons Settings->..." to enter into "Icons Settings" interface to add new icons on tool bar:



You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself.. After your "Apply Change", the new added icon will show in the toolbar. (More details about Call Javascript function will be introduced in the part of "Edit Page->Add Link".)

v. Button Icons

Define settings for the icons of the buttons:

Icon Color

Copyright 2013 by pageflippdf.com

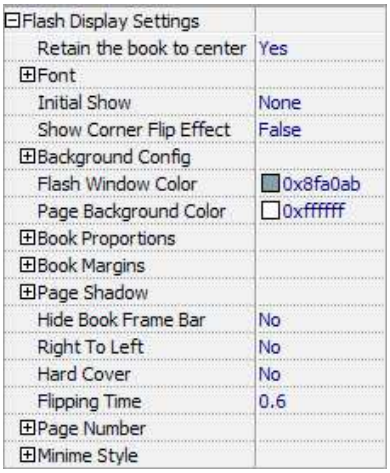
Icon File

Select the Tool Bar Button to replace with your own icon.

More details please view here:

http://www.pageflippdf.com/faq/how-to-replace-icons-on-flash-toolbar.htm

(3). Flash Display Settings

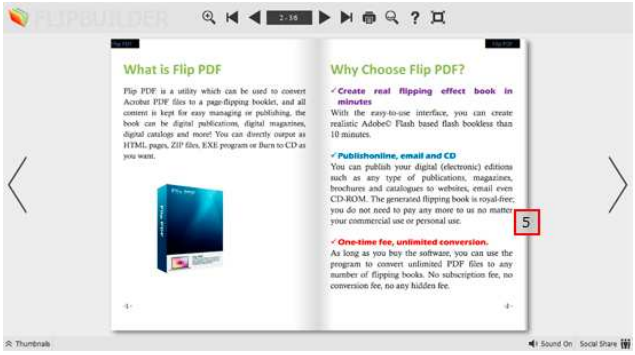


i. Retain the book to center

Place your book to center or right side based on your needs. For example, if you want to show background image with advertisement or logo on left side, you can select "No" in the option.

ii. Pages per thickness (only in Neat template)

To create more real life like ebook, you can set Pages thickness, there are 5 levels for you to choose based on your needs. And on the book edge, you will see different page number tips for you to click and go to that page directly:



iii. Background Alpha

Set the value (0-1) of alpha to control the transparence of the background in flip book. For example, you can set the value as 0 to make the book background as transparent completely, when you embed the book in other HTML page, it will show the background of that HTML only.

Copyright 2013 by pageflippdf.com

iv. Show Corner Flip Effect

Show the Corner Flip Effect at the beginning to tell readers that they can drag or click the corner to turn pages directly.

v. Mouse Tracing Effect

Show Mouse Tracing Effect at the beginning to tell readers that they can drag or click the corner to turn page. If the book is set to open with double page spread, then the Mouse Tracing Effect won't work.

vi. Open thumbnails pallet

Define whether the thumbnail pallet open or not when you arrive on the book.

Copyright 2013 by pageflippdf.com

vii. Font

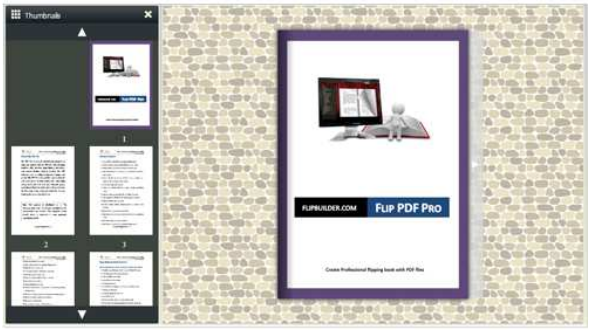
Change fonts of toolbar buttons, flash windows even bookmarks or search result panel.

viii. Initial Show (set in Float/ Spread templates)

You can show Bookmark panel or Thumbnails panel on the flash page at the beginning, just select "Bookmark" or "Thumbnails" in this option:

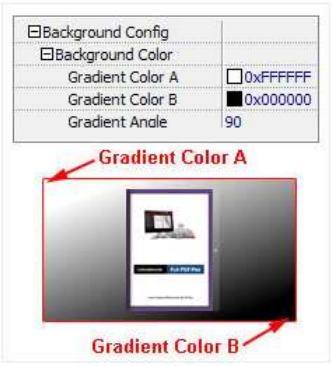
For Example, select "Thumbnails":

Then you will get flipbook shown with below initial interface:



ix. Background Config

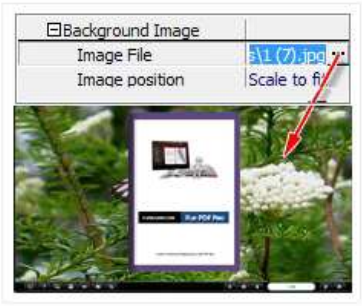
Background Color:



Define background for your flipbook with gradient color or pure color (the same color for "Gradient Color A" and "Gradient Color B"). Gradient Angle is the angle between two colors.

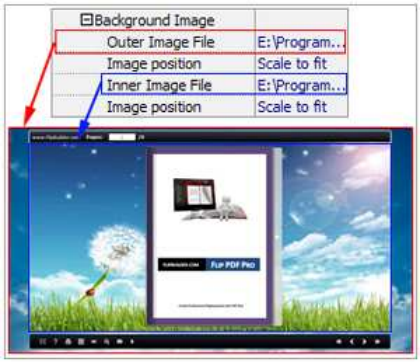
Copyright 2013 by pageflippdf.com

Background Image (set in Classical and Spread templates):



Click the icon "..." to choose background image from your computer, and there are 11 kinds of "Image Position" for you to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

Background Image (set in Float template):



The Float template enables you to add two background images: Outer Image and Inner Image. You can make Inner background image to show special information, such as advertisement or company logo, etc. There are also 11 kinds of "Image Position" for you to choose: Scale to fit, Fill, Top Left, Top Center, Top Right, Middle Left, Middle Center, Middle Right, Bottom Left, Bottom Center and Bottom Right.

x. Flash Window Color

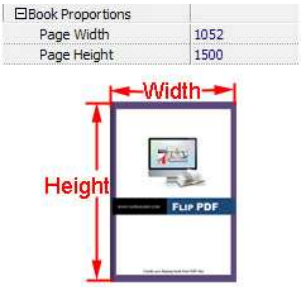
This color will be applied on all flash windows, such as the book window, "Help" window, "Print" window and so on.

Copyright 2013 by pageflippdf.com

xi. Page Background Color

When load pages, or if the page number of your PDF file is odd, then the page (the last page) will show with the "Page Background Color".

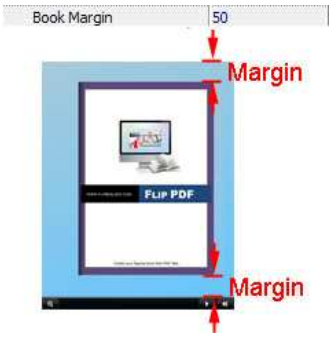
xii. Book Proportions



Please note that the values are not fixed in pixels or inches, they represent a ratio of "Page Width: Page Height", and the book size will be adjusted with your Explorer Window Size.

xiii. Book Margins

Book Margin (set in Classical Template):



"Book Margin" refers to the distance between the book and the toolbar.

Copyright 2013 by pageflippdf.com

Top/ Bottom/ Left/ Right Margin (set in Float/ Spread Template):

xiv. Page Shadow

The value also takes the value of Book Proportions as reference, and the value interval of "Page Shadow Opacity" is "0~1", the larger value refers to the deeper shadow color.

xv. Hide Book Frame Bar

If don't want to show the book frame bar, choose "Yes" in this option.

xvi. Right to Left

If the language of your file is read from right to left (such as Arabic), then choose "Yes" in "Right to Left" option:

Copyright 2013 by pageflippdf.com

xvii. Start on Double Page

Open your book in double-page spread or not. "Yes" means open book without cover, presenting first two pages at a time. If you have odd number pages, you can set this option as "Yes".

xviii. Hard Cover

If you want create hard cover effect (a book bound with rigid protective covers) for your flipbook, choose "Yes" in "Hard Cover" option:

xix. Flipping time

Sets page flipping time in seconds according to your needs. (Recommended value is 0.6)

xx. Mouse Wheel to Turn page

Enable or Disable turning page with mouse wheel.

xxi. Page Number

If you don't want to count in the cover page, table of contents pages into the actual page numbers, you can set "Start Page Numbering (Roman)" and "Start Page Numbering (Arabic)". For example, the first 3 pages are Table of Content pages with Roman page numbers, and set Arabic page numbers from page 4, then you will get page number box like below:

Copyright 2013 by pageflippdf.com

xxii. Minime Style

If you want to present Page-flipping eBook pages directly without showing toolbar, especially when you want to embed eBook into a small area in existing webpages, then you can use this "Minime Style". The Minime Style will trigger when the Width or Height of the Flash Container is less than the defined value. You can also always show the page-flipping eBook in Minime Style with adding a parameter to your URL like this: www.yourdomain.com/index.html?alwaysMinimeStyle=true .

(4). Flash Control Settings

Flash Control Settings	
Security Settings	No Security
Links	
Google Analytics ID	

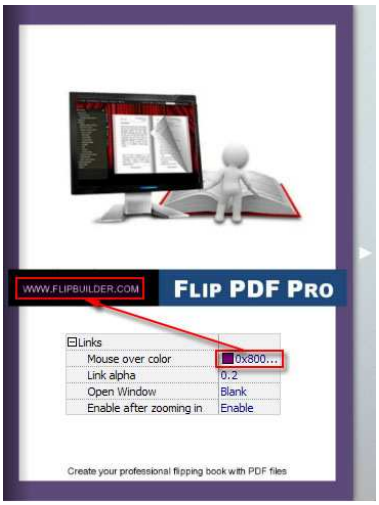
i. Security Settings

If you want to protect your flash books with passwords, you can click "..." icon to enter into "Flash Security Config" interface:

Select "Security Type->Single Password", and input passwords into the box (there is no restriction on password format at present). You can also set "Protect Page Range" as "All Pages" or the latter

pages after a defined page number. (Tips: The program utilize RC4 algorithm to protect eBook pages, the eBook content pages will show nothing without permission.)

ii. Links



If you have check "Import links" option in "Import PDF" interface, or add links in "Edit Page" interface, then you can define settings here, choose "Mouse over color", "Link alpha" (refers to the link area opacity, value interval: 0~1, "0" stands for the area is totally transparent), and "Open Window->Blank/ Self". The links also can be clicked after zooming by setting "Enable after Zooming in->Enable".

iii. Google Analytics

In the HTML output format, you can add statistics by using google analytics. You can get more information about Google Analytics ID from http://www.google.com/analytics/ .

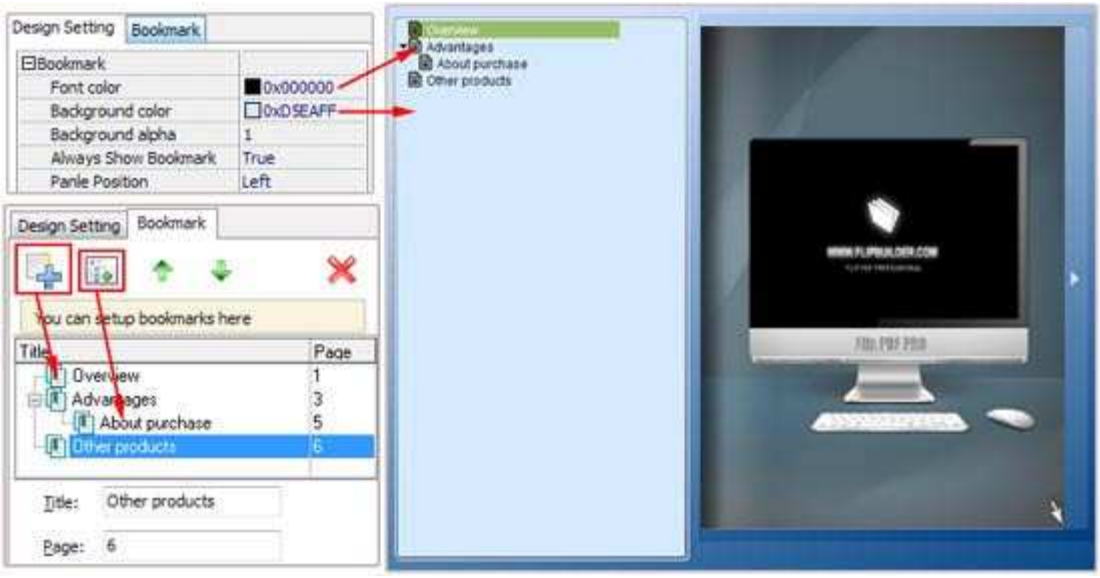
2. Scenes Setting

To make your book more attractive and lively, you can apply animated background which called "Scene" in the flip program. There are many pre-designed scenes for you to choose and use directly, such as Autumn Leaves, Beach Beauty, Desert, Moon, Underwater World, Grassland, Snow, Clouds, etc.

Just double-click to apply the scenes, or you can set your own style scene by setting "SWF" format background image in "Design Setting" part.

3. Bookmark Editing

You can check "Import Bookmarks" option in Import PDF interface if your PDF contains bookmarks, or you can edit bookmarks directly in the program. In Classical Template, you can even define bookmark font color, background color, position, etc.:



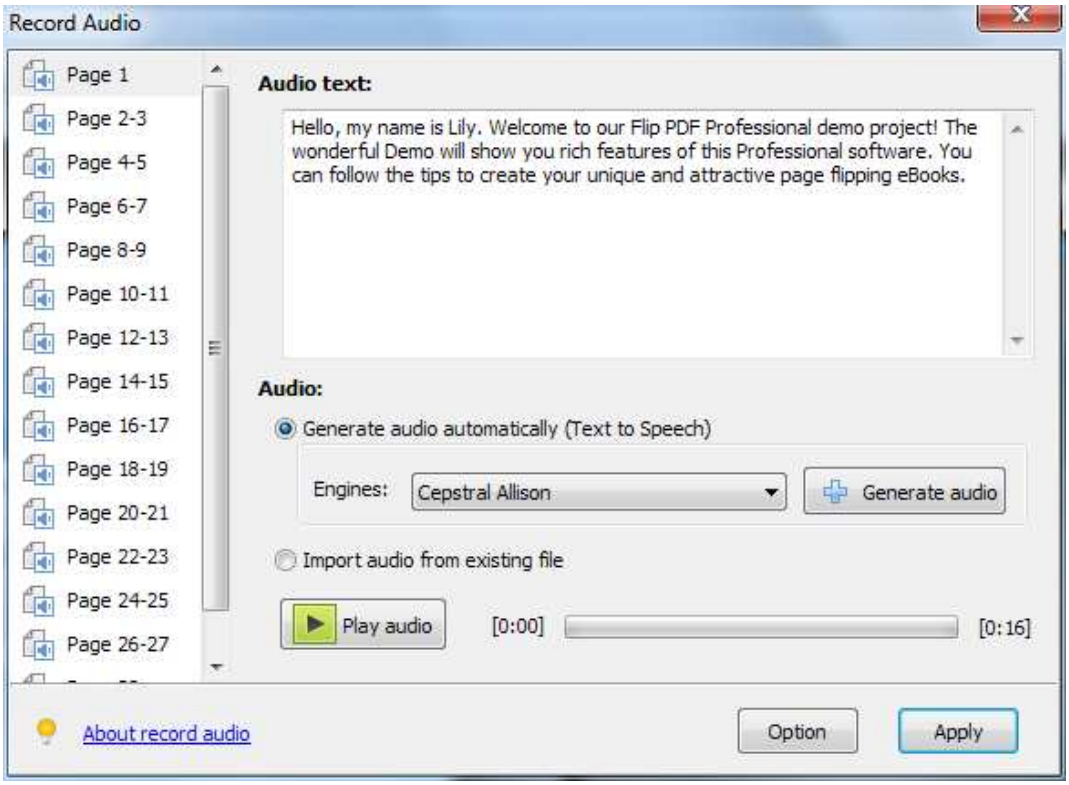
4. Assistant

If you want to provide sound or text tips for pages of your books, you can enable the Assistant Feature, edit scrolling text, record audio or insert sound directly. Then readers can following your tips, listen to the audio you applied, get more interest and info from your book.

Copyright 2013 by pageflippdf.com

Click "Record & Manage Audio Files" icon

to enter into Record Audio interface:



Input "Audio Text" for each page, and then choose Text-to-Speech engine, and then click "Generate audio". After generating, you can click "Play audio" to listen to the audio, you can also choose "Import audio from existing file" to apply existing audio directly.

About Text-to-Speech engine install and use, you can view details in this page:
http://www.pageflippdf.com/faq/How-to-read-your-text-to-readers-in-flipping-book.html

5. Other Settings

(1). Export Theme

If you want to save the current template settings as your own style template for later uses, you can click "File->Export current settings as Theme" button to storing all current template settings, include the background images, margin values, toolbar buttons and so on.
Then when you want to use later, just click "File->Import Themes", the theme will be added to the templates selecting interface. Download more themes from eFlip now:
http://www.pageflippdf.com/themes-2012.html

Copyright 2013 by pageflippdf.com

(2). Application Options

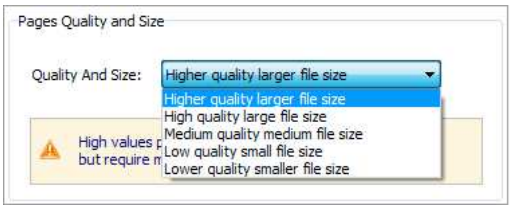
i. Render Engine Option

EFLIP Enterprise provides 3 different render engines for you to create higher quality page-flipping eBooks, click "Options->Application Options" to enter into "Render Engine" interface: SWF: Much legible characters, smaller output size; GPL Ghostscript: Higher color transfer quality; Inner Library: Faster convert speed (change option when PDF imported failed).

ii. Create Mobile Version Option

Pages Quality and Size

Five types of "Pages Quality And Size" for mobile version eBooks:



Mobile Template

The current version provides two mobile template modes for you to use: Slide and Single Page Flip. The later one adds page-flipping effect on the pages while viewing in mobiles.

After defining options, click

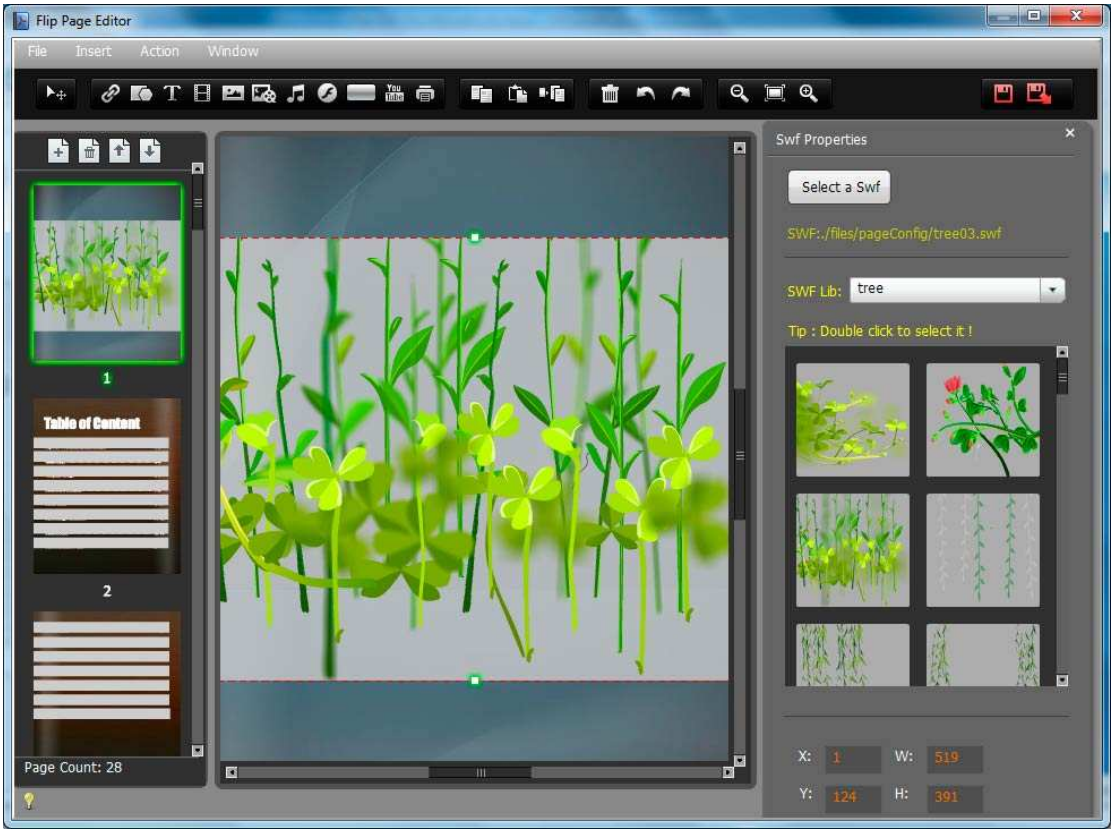
icon to apply the settings.

IV. Edit Pages

Use EFLIP Enterprise to add link, video, sound or image file. Click "Edit Pages" button

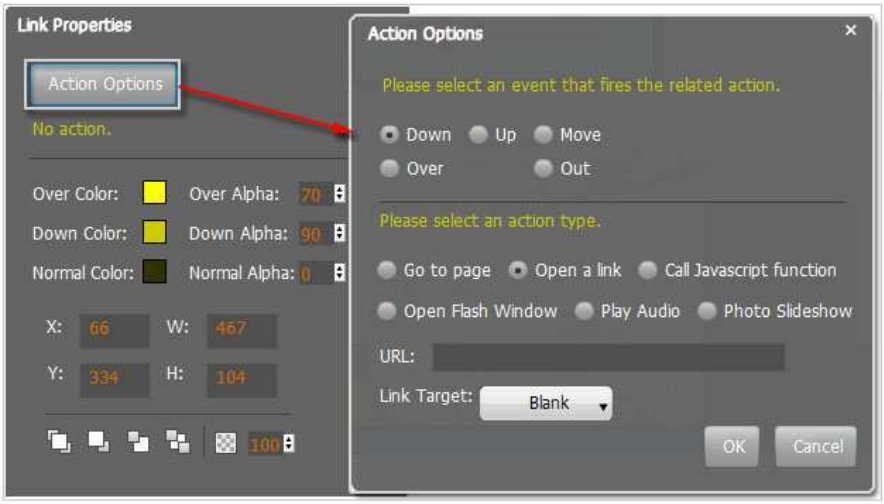
to enter into page edit interface:

Copyright 2013 by pageflippdf.com



1. Add Link

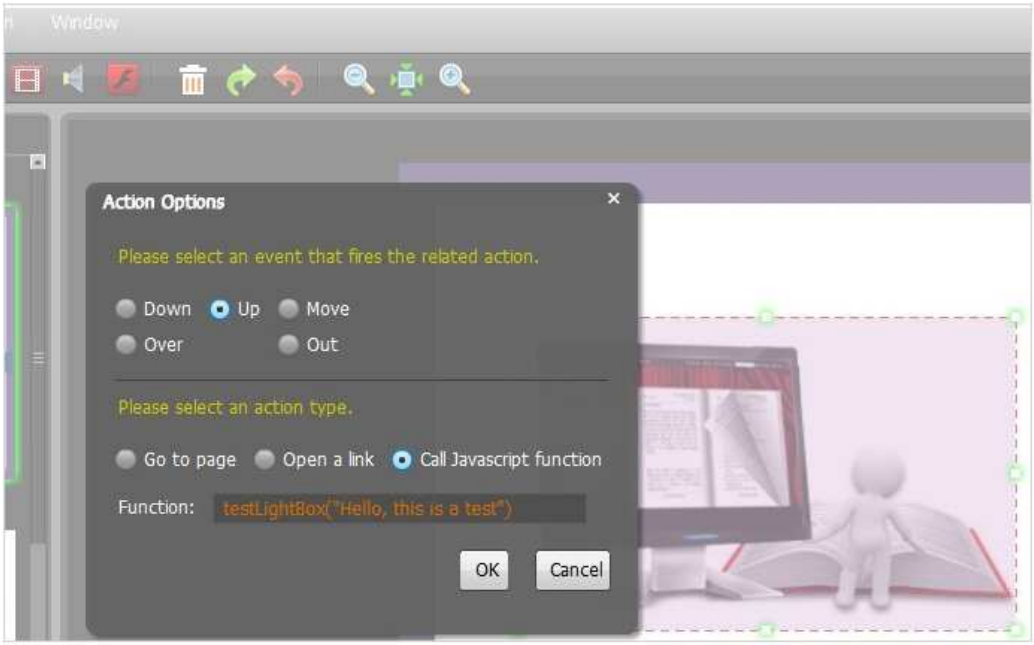
Click the icon and then draw a link box on the area you want to add link, then define properties in below panel:



You can define the link action as "Go to page", or open an online webpage, or even "Call Javascript function" to carry out your wanted interactive functionalities via defining Javascript function yourself. For example, you can show a pop-up light box while readers clicking some image on page, or pop-up a questionnaire or other Web Form by clicking some text. Just make sure the parameter you set in "Function" can be called in from HTML page.

Copyright 2013 by pageflippdf.com

Example: Check "Call Javascript function" as action type, then input Function as "testLightBox("Hello, this is a test"):



And then make sure the Javascript wrote into the index.html page as below image shows (the same as you set in "Link Function"):

```
<head>
<title>PDF-BenU brochure 2010-100dpi</title>
<meta http-equiv="Content-Type" content="text/html; charset=utf-8" />
    <meta name="Keywords" content="" />
    <meta name="Description" content="" />
    <meta name="Generator" content="[Flip PDF version 3.0] at http://flipbuilder.com/" />
    <!-- Include CSS to eliminate any default margins/padding and set the height of the html element and
         the body element to 100%, because Firefox, or any Gecko based browser, interprets percentage as
         the percentage of the height of its parent container, which has to be set explicitly.  Initially,
         don't display flashContent div so it won't show if JavaScript disabled.
    -->
    <style type="text/css" media="screen">
        html, body  { height:100%; }
        body { margin:0; padding:0; overflow:auto; text-align:center;
               background-color: #ffffff; }
        #flashContent { display:none; }
    </style>

    <script  type="text/javascript">

        function testLightBox(strFromFlash){
        /**
        do the things you want here!
        **/
            alert(strFromFlash);
        }

    </script>
```

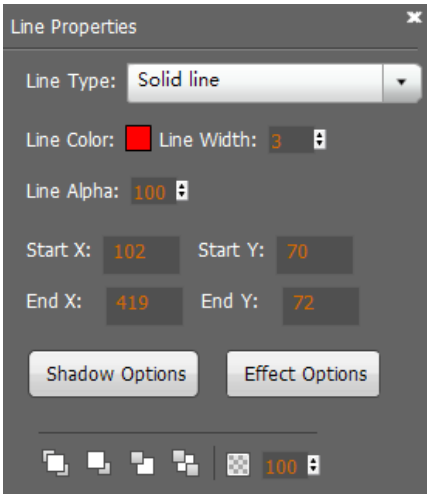
2. Select Shape to Insert

You can draw shapes on pages as you want by clicking icon . You can add below shapes:

Copyright 2013 by pageflippdf.com

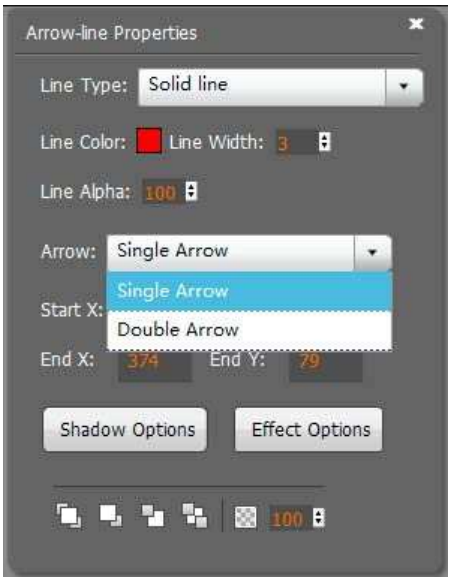
(1). Line

Choose "Add Line" icon to draw line on pages, and then define options for the inserted line in right panel as you want. Like set Line Type as "Solid line" or "Dotted line", define Line Color, Width, Alpha, Position, Size, Shadow, and Effect (support "Fade In" at present):



(2). Add Arrow-line

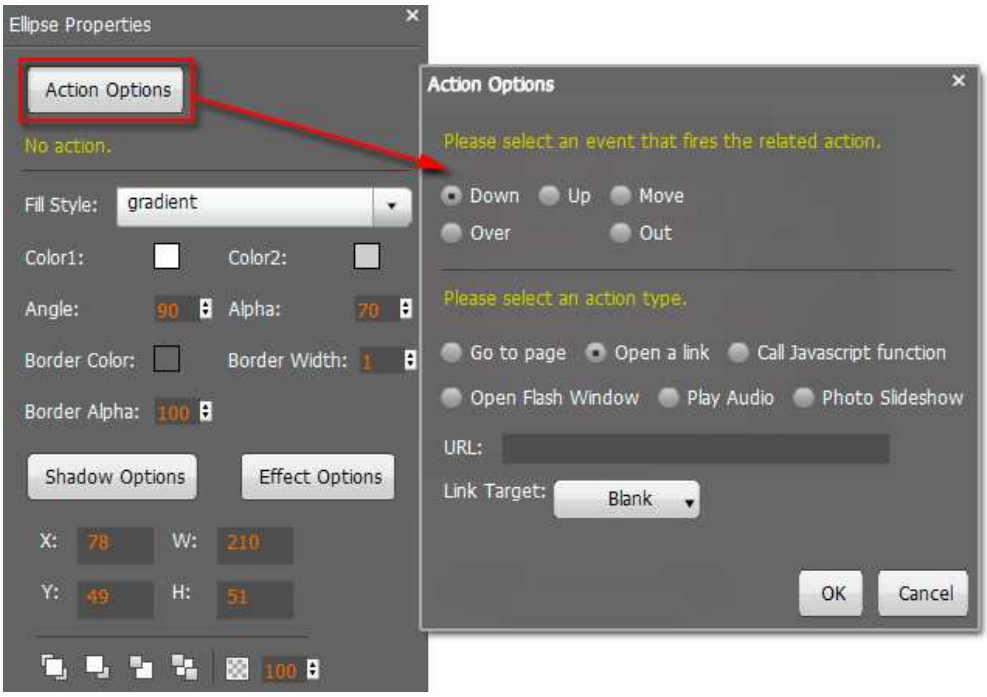
Click "Add Arrow-line" icon to draw arrow-line on pages. You can also define the arrow-line proportions, like color, width, alpha, position, size, etc.:



(3). Add Ellipse

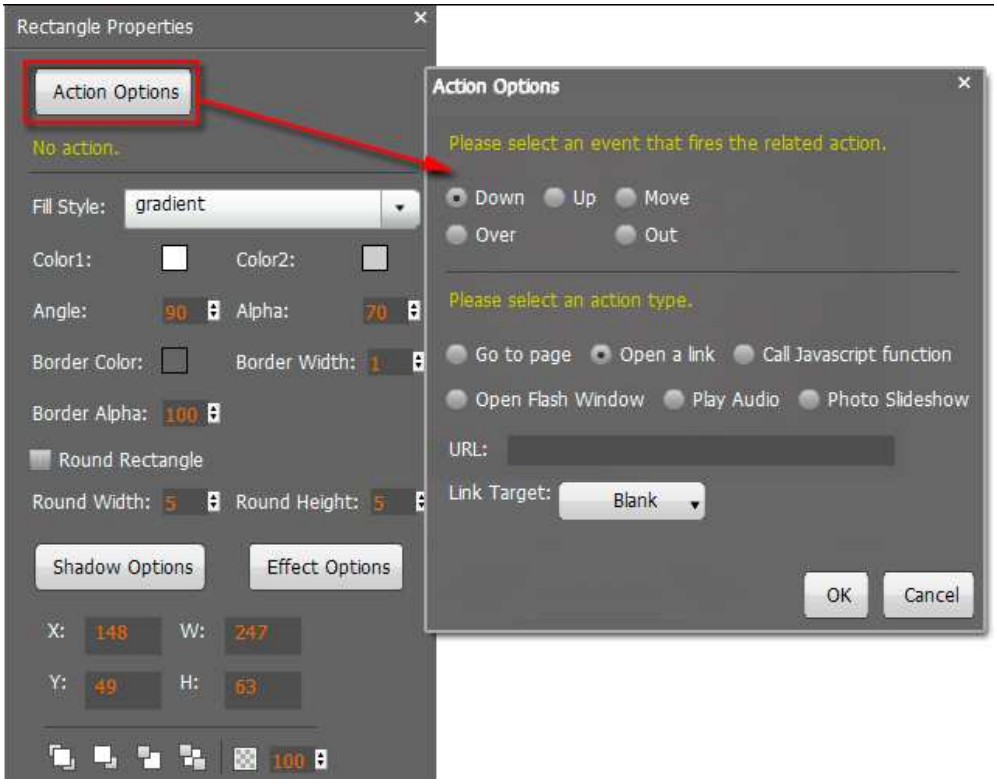
Click "Add Ellipse" icon to draw ellipse on pages, you can also define options like actions, fill style, color, border, shadow, effect, etc. Action types include "Go to page", "Open a link", "Call Javascript function", "Open Flash /video Window", "Play Audio" or "Photo Slideshow".

Copyright 2013 by pageflippdf.com



(4). Add Rectangle

Click "Add Rectangle" icon to draw rectangle on pages, you can also define options like actions as "Go to page", "Open a link", "Call Javascript function", "Open Flash /video Window", "Play Audio" or "Photo Slideshow". And define fill style, color, border, shadow, effect, etc:



Copyright 2013 by pageflippdf.com

(5). Add Highlight Area

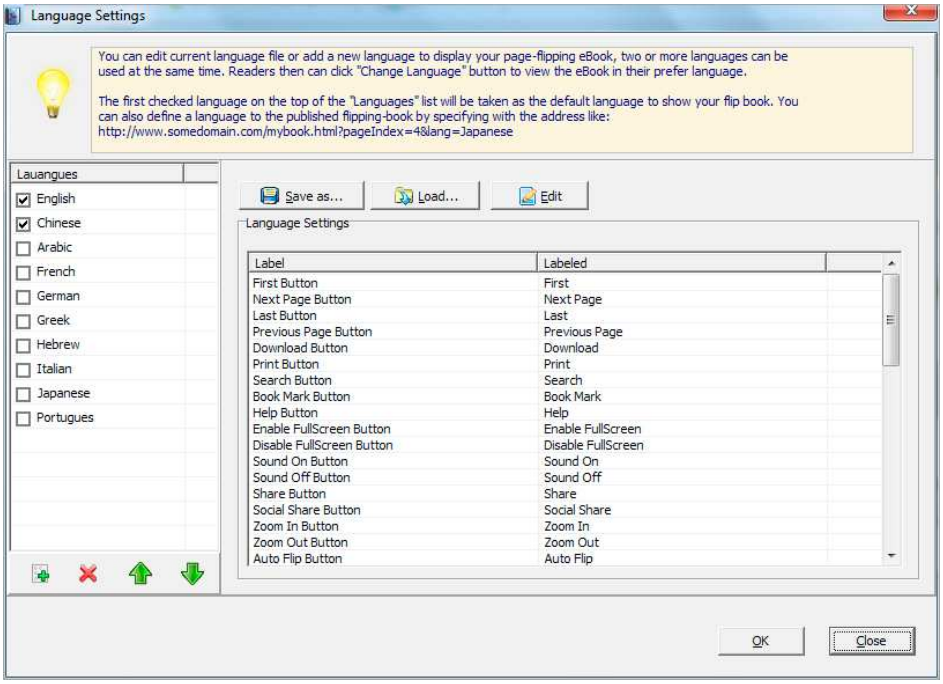
Click "Option->Flash Language" or "…" button beside Language setting part, you will enter into the Language Settings interface as below shows:

Copyright 2013 by pageflippdf.com



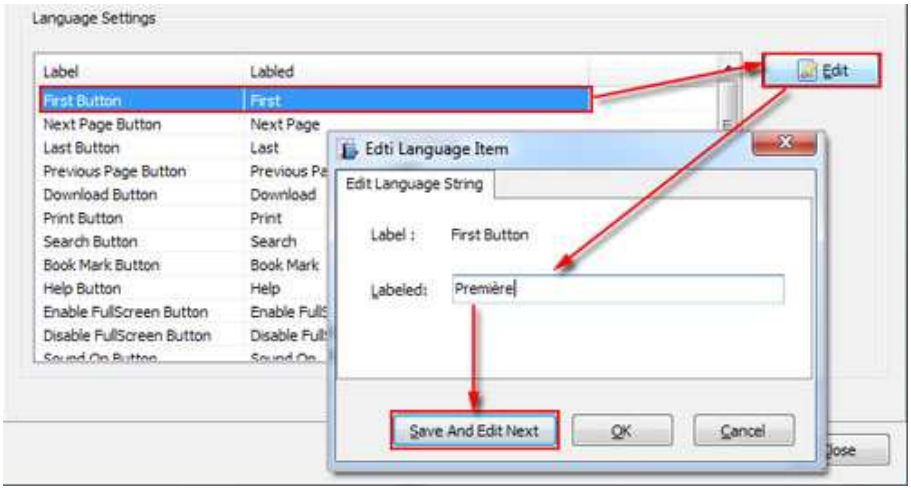
Panel Description:

As the tips explaining, the "Labeled" column lists the buttons and instructions on Flash books in defined language, and the program provides you 10 different languages for you to use: English, Chinese, Arabic, French, German, Greek, Hebrew, Italian, Japanese and Portuguese. You can also add other language for your own uses:

1. Click the button and define name for the new language:

2. Choose the first label and click "Edit" icon, define new language text in "Labeled" box, then click "Save And Edit Next":

Copyright 2013 by pageflippdf.com



3. At last, you can get all Labels translated into your new language as the images shows:

Label	Labled
First Button	Première
Next Page Button	Page suivante
Last Button	Dernière
Previous Page Button	Page précédente
Download Button	Télécharger
Print Button	Imprimer
Search Button	Rechercher
Book Mark Button	Réservez Mark
Help Button	Aide
Enable FullScreen Button	Activer FullScreen
Disable FullScreen Button	Désactiver FullScreen

You can delete unwanted language:

Or save your edited new language file as XML or TXT file: 
Load language file saving before for current using:

After setting language, click

icon to apply settings.

VI. Upload Online

To make it easier for you to publish your created flip page books online, we developed the Upload Online Service. By using this service, you can upload your book online instantly after creating it, with no FTP or other upload tool needed. You can easily manage your books, and make it easy for people to view your books online in their browser on their PC, Mac, iPhone, iPad and Android devices.

After designing your book style, just click "Upload Online" button

to upload your book onto eFlip website server directly. Just need 3 steps: Sign up, login your account, upload your book.

Copyright 2013 by pageflippdf.com

1. Sign Up

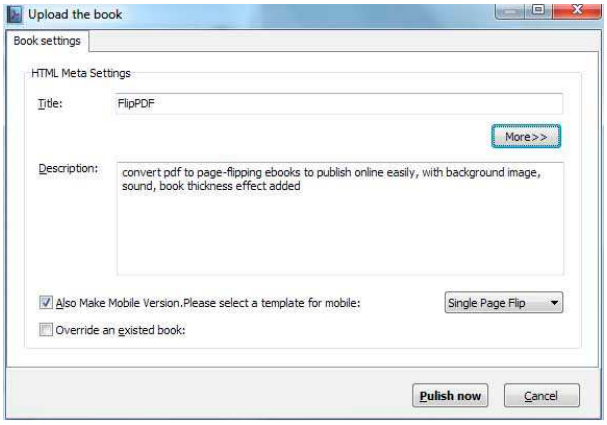
Create your account to use the Upload Service easily:

2. Login Account

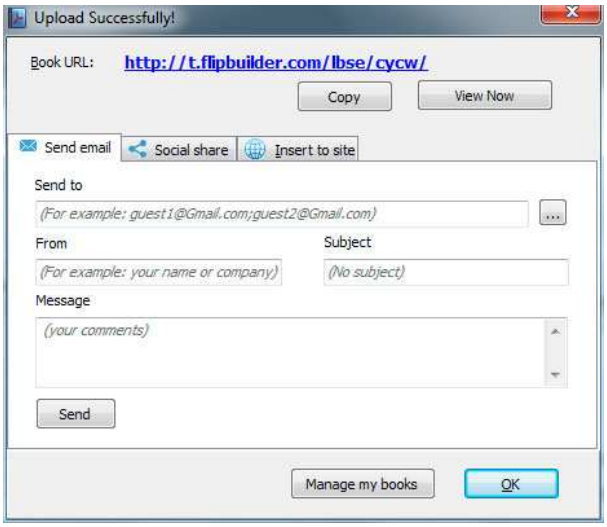
After registration successful, you will login automatically.

3. Upload Your Book

After login your account, just input your book HTML title and then click "Publish Now" to upload your book. You can also define Description and create mobile version in "More":

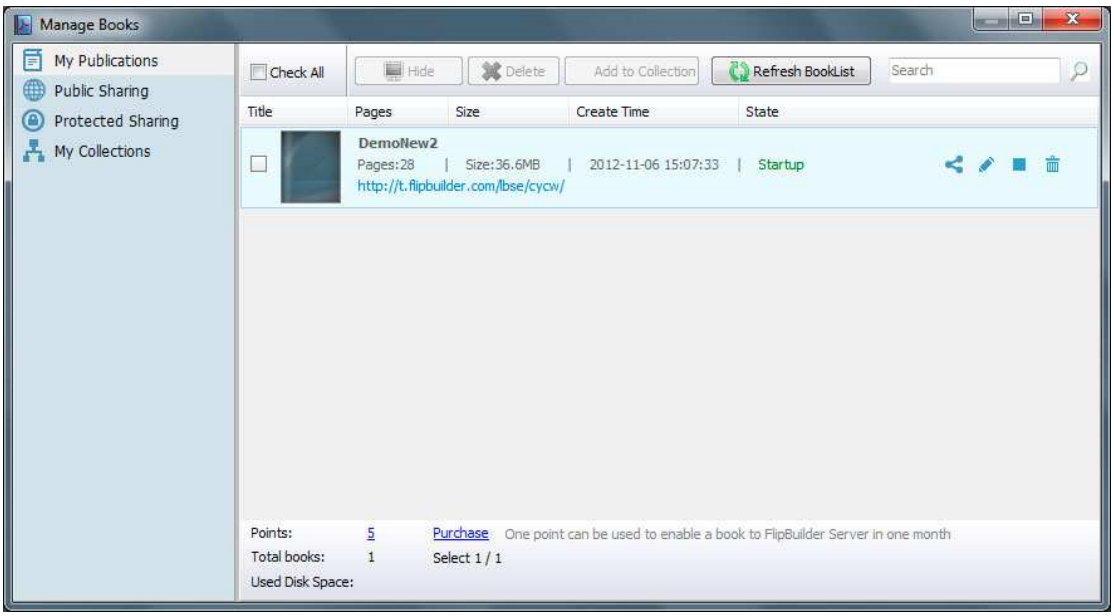


After uploading successfully, you can use the Book URL to share with others online, or through social share websites, or copy the Embed Code to insert into webpages in "Book Information" panel, etc.



Copyright 2013 by pageflippdf.com

You can click "Manage Online Books" button 
in main process interface to manage your uploaded in below window:



In the book manage window, you can check your publications, share them with others, edit book info, hide your book to prevent other people from reading your book, even delete it if you want to edit again.

VII. BookCase

BookCase integrated in EFLIP Enterprise will be the best tool to help you build digital library to store and manage eBooks. All books you published on eFlip Server or some other place online can be collected and shown in your bookcase, you can easy manage and share the books via using the wonderful and realistic BookCase tool.

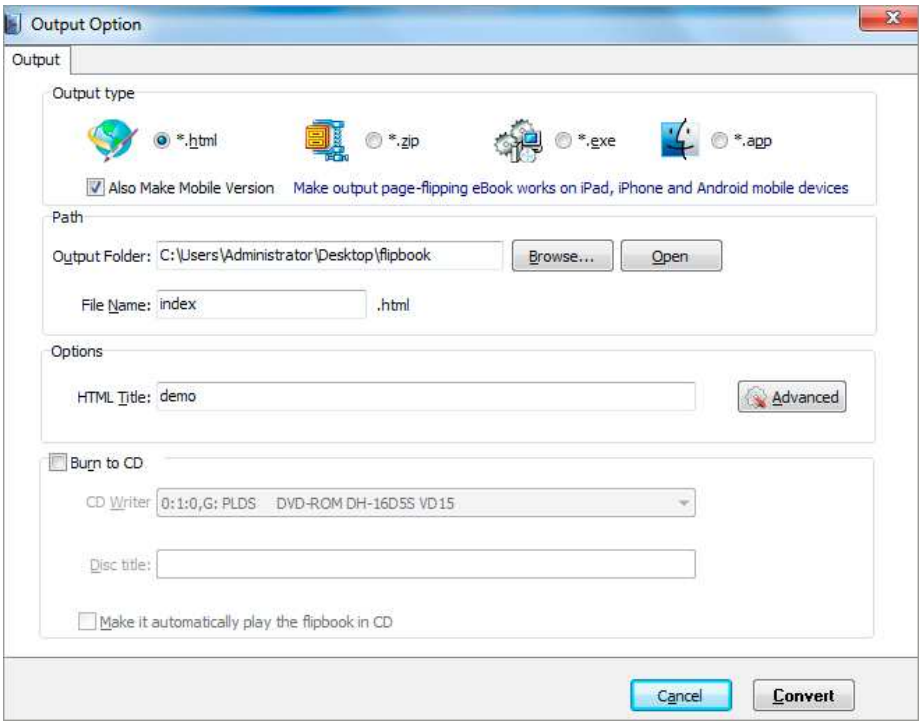
More details about how to use and design BookCase here:

Copyright 2013 by pageflippdf.com

http://www.pageflippdf.com/faq/flipbook-bookshelf.html

VIII. Output Interface

Click "Convert to Flipping Book" to enter into output interface:



There are below Output types you can choose:

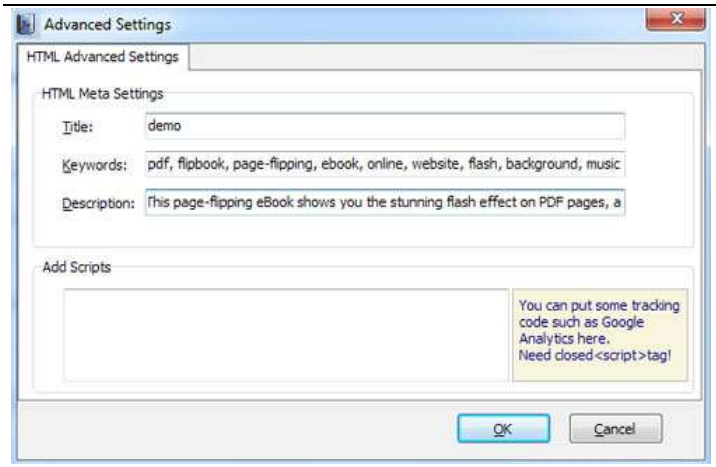
1. HTML

This output type is for uploading created page-flipping ebook onto websites:

You can define HTML Title and other properties by clicking "Advanced" button:

Set Keywords, Description or even Script in the below interface:

Copyright 2013 by pageflippdf.com



2. ZIP

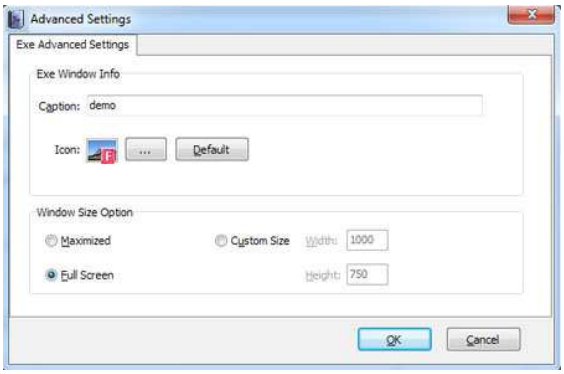
This output type is for compressing the created files into an integral ZIP package which can be sending out as attachment directly. You can also define HTML Advanced Settings by clicking "Advanced" icon:

Your recipients just need to uncompress the ZIP file and then they can view the HTML flipbook instantly:

3. EXE

This type is for outputting flipbook as a single executive file, easy storing and easy viewing. You can also define Icon and Opening Window Size in Advanced Settings:

Copyright 2013 by pageflippdf.com



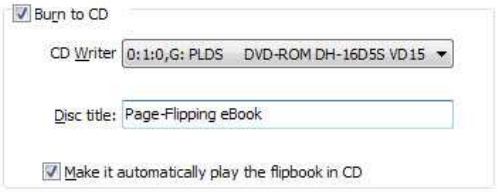
4. APP

If you want to make executable application to run on Mac devices, output as "*.app" format.

5. Mobile Version

You can even output Mobile Version while choosing HTML or ZIP format at the same time. After creating mobile versions, you just need to output all files online (including HTML, SWF, "files" and "mobile" folders), then you can visit the flipbook page through your mobile browser.

6. Burn to CD



After choosing output type, check the option "Burn to CD", set "CD Writer", define "Disc title".
